

COOKIES POLICY

1. Introduction

1.1. Discover the extensive glossary and comprehensive list of terms featured in our Terms and Conditions.

1.2. The Laboratory Of Seven Possibilities, UAB Cookies Policy is an integral part of the LSP Privacy Policy.

1.3. Immerse yourself in our website experience, enhanced by the utilization of cookies.

1.4. By utilizing our website and giving your consent, you acknowledge and accept our utilization of cookies in full compliance with the stipulations laid out in this policy.

2. Cookies

2. 1. A cookie is a unique text file that contains a combination of letters and numbers. It is sent from a web server to a web and stored within the browser's memory. Each time the browser requests a page from the server, the cookie is sent back to the server. It's important to note that cookies are not a form of computer software.

2. 2. There are two main types of cookies: "persistent" and "session" cookies. A persistent cookie is stored within the web browser and remains valid until its predetermined expiry date. However, users have the option to delete these cookies before the expiry date. On the other hand, a session cookie expires at the end of a user's session, specifically when the web browser is closed.

2. 3. If you want to learn more about the different types of cookies, you can visit cookiepedia.co.uk.

2. 4. It's worth mentioning that cookies typically do not contain any personally identifiable information about the user. However, it's possible for personal information stored separately by a website to be linked to the information stored and obtained from cookies.

2. 5. Web servers often utilize cookies to identify and track users as they navigate through various pages on a website. Additionally, cookies can help recognize returning users when they revisit the same website.

3. About our cookies

3.1. Our website utilizes both session and persistent cookies for various purposes.

3.2. These cookies play a crucial role in the authorization process of our website, <https://lsp.capital>.

3.3. Below on this page, you will find the names of the cookies we employ on our website, along with their respective purposes.

3.3.1. The cookie name serves the purpose of identifying a user's computer during their visit to our website, ensuring the validation of authenticated user sessions.

4. Analytics cookies

4.1. We utilize the power of Google Analytics to deeply analyze the usage of our website.

4.2. To gather statistical and valuable insights, our dedicated analytics service provider leverages the potential of cookies.

4.3. The cookies employed by our website for analytics purposes come in various names, including [_ga, _gat, __utma, __utmt, __utmb, __utmc, __utmz and __utmv].

4.4. If you'd like to delve into the specifics of each analytics cookie type, we encourage you to visit the comprehensive resource available at:

<https://developers.google.com/analytics/devguides/collection/analyticsjs/cookie-usage?hl=en>

4.5. The invaluable information generated in relation to the usage of our website is skillfully utilized to generate detailed reports guiding our website optimization efforts.

4.6. For an in-depth understanding of our analytics service provider's privacy policy, kindly visit: <http://www.google.com/policies/privacy/>

5. Locking cookies

5.1. Most popular web browsers offer the option to reject or accept cookies. Here are the steps to block cookies in different browsers:

5.1.1. For Internet Explorer (version 11), simply go to "Tools", then "Internet Options", followed by "Privacy" and "Advanced". In the Advanced settings, you can manage your cookie preferences and block them.

5.1.2. In Firefox (version 47), access the "Tools" menu, select "Options", then "Privacy". From there, choose "Use custom settings for history" and uncheck the box that says "Accept cookies from sites" to prevent them from being saved.

5.1.3. Chrome (version 54) users can block all cookies by navigating to the "Customize and control" menu, then selecting "Settings". Next, click on "Show advanced settings" and go to "Content settings". Under the "Cookies" section, choose the option that says "Block sites from setting any data".

5.1.4. Opera users can block all cookies by going to the main menu and selecting "Settings". From there, click on "Privacy & security" in the sidebar and navigate to the "Cookies" section. Choose an option that suits your preference for handling cookies.

5.2. However, it's important to note that blocking all cookies may have a detrimental effect on the usability of our website.

5.3. By blocking cookies, you may experience limitations in accessing certain features on our website.

6. Deleting cookies

6.1. If you wish to remove cookies that are already stored on your computer, there are different methods depending on the browser you are using. Here are the steps for each:

6.1.1. In Internet Explorer, version 11, it is necessary to delete the cookie files. You can find detailed instructions on how to do this by visiting <http://windows.microsoft.com/en-gb/internet-explorer/delete-manage-cookies#ie=ie-11>.

6.1.2. For Firefox users, specifically version 47, you can delete cookies by following these steps: click on "Tools" in the browser menu, then select "Options" and "Privacy". From there, choose "Use custom settings for history" from the dropdown menu, click on "Show Cookies", and finally, click "Remove All Cookies". If you require more guidance, you can

find instructions at: <https://support.mozilla.org/en-US/kb/delete-cookies-remove-info-websites-stored>.

6.1.3. Users of Chrome, version 52, can delete all cookies by accessing the browser's "Customise and control" menu, and then clicking on "Settings". After that, select "Show advanced settings" and navigate to "Clear browsing data". From there, choose "Cookies and other site and plug-in data" before finally clicking "Clear browsing data". Instructions with more details can be found at:

<https://support.google.com/accounts/answer/32050?co=GENIE.Platform%3DDesktop&hl=en>.

6.1.4. Lastly, in Opera, you can delete all cookies by first clicking on "Settings", then "Show advanced settings", followed by "Preferences". In the "Preferences" section, go to "Advanced" and select "Cookies". From there, you can check the box that says "Delete new cookies when exiting Opera". For additional assistance, please refer to the instructions provided on <http://www.opera.com/help/tutorials/security/privacy/>.

6.2. It is important to note that removing cookies will have a negative impact on the usability of our website.
